

## 179D Federal Tax Deduction

179D benefits begin with a basic \$0.50 sf tax break for an LED upgrade, for any building with 25% energy savings, and that doesn't include rebates and utility savings.

PLUS \$0.02 per sf for each percentage point of energy savings above 25%

**And, BONUS, if the energy saving is 50% or more, you can deduct the entire cost of the LED installation, or \$1.00 per square foot, whichever is less. (e.g. \$300,000 for a 300,000 sf building)**

You could upgrade, expand your business, get new equipment, and still be in the black. The Eagle will carefully specify the right fixtures for maximum benefit, and the next two decades of almost no lighting maintenance is icing on the cake.

**Our phone number is 813-463-2420 or you can email [savings@eag-led.com](mailto:savings@eag-led.com).**  
We are your LED lighting specialists. We work with all local utilities and power companies, and in ten minutes we can tell if you qualify for our net zero cost LED light program.

The companies below, and many more, already reaped the benefit. EAG-LED Global, the world's largest and most popular woman owned LED Manufacturer.

Moriden America • Pearle Vision • Furniture Manor • NASCAR • Sky West • Spice World • Chevrolet • Transtech • Mister Carwash and more
