

CBRE Approved Vendor

EAG-LED Global Lights

Make your properties safer and more secure!

The Eagle is always excited to partner with CBRE coast to coast. We create LED light fixtures for every application with an eye on your environmental sustainability.

CBRE has many properties with specialized needs requiring precise, turn key solutions. You can have confidence that all safety, photo metric and OSHA requirements are fully satisfied.

With more than 850 light fixtures, EAG-LED is the only manufacturer who delivers, installs and fully supports every light. If an issue arises, we are always available, and so quick to respond, you'll think we're camping out in your parking lot.

No matter what you or your clients need, we have an application. Plus the knowledge, skill, experience, products and professional staff to provide serious, responsive customer service.

Our goal is to offer a simple, well planned, strategic approach from start to finish. You always get more than just lights and installation. We consider every angle, handle every question and concern, and fully honor the commitment to excellence we are famous for.

If you're currently working with the Eagle, you understand the myriad benefits of an EAG-LED presence local to you. Immediate answers, quick energy audits, hands on supervision for installations, and instant customer support if there is ever a problem.

We have LED Specialists in all major cities. Call 813.463.2420. We want to be your LED solution!
